

RECOMBLACKSMITH®

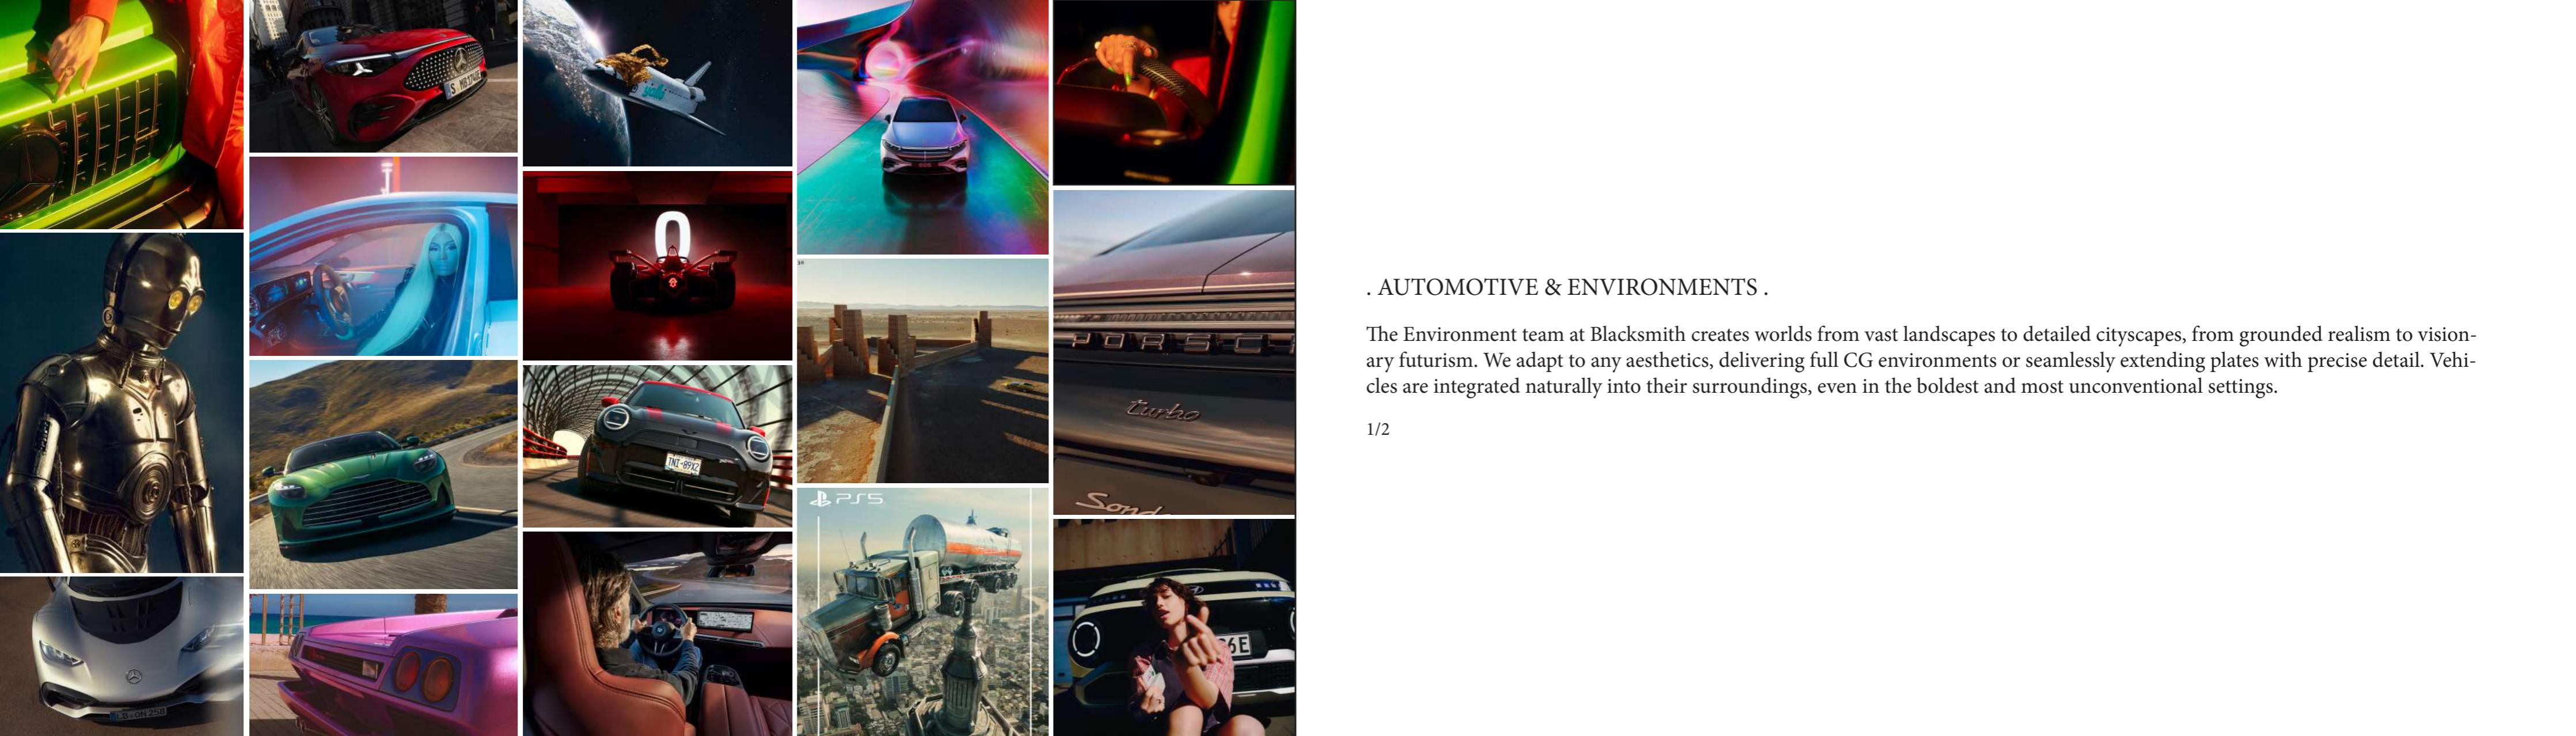

Part of Recom Group est. 1987

. WE ARE ANALOGUE . WE ARE DIGITAL . WE ARE TIMELESS .

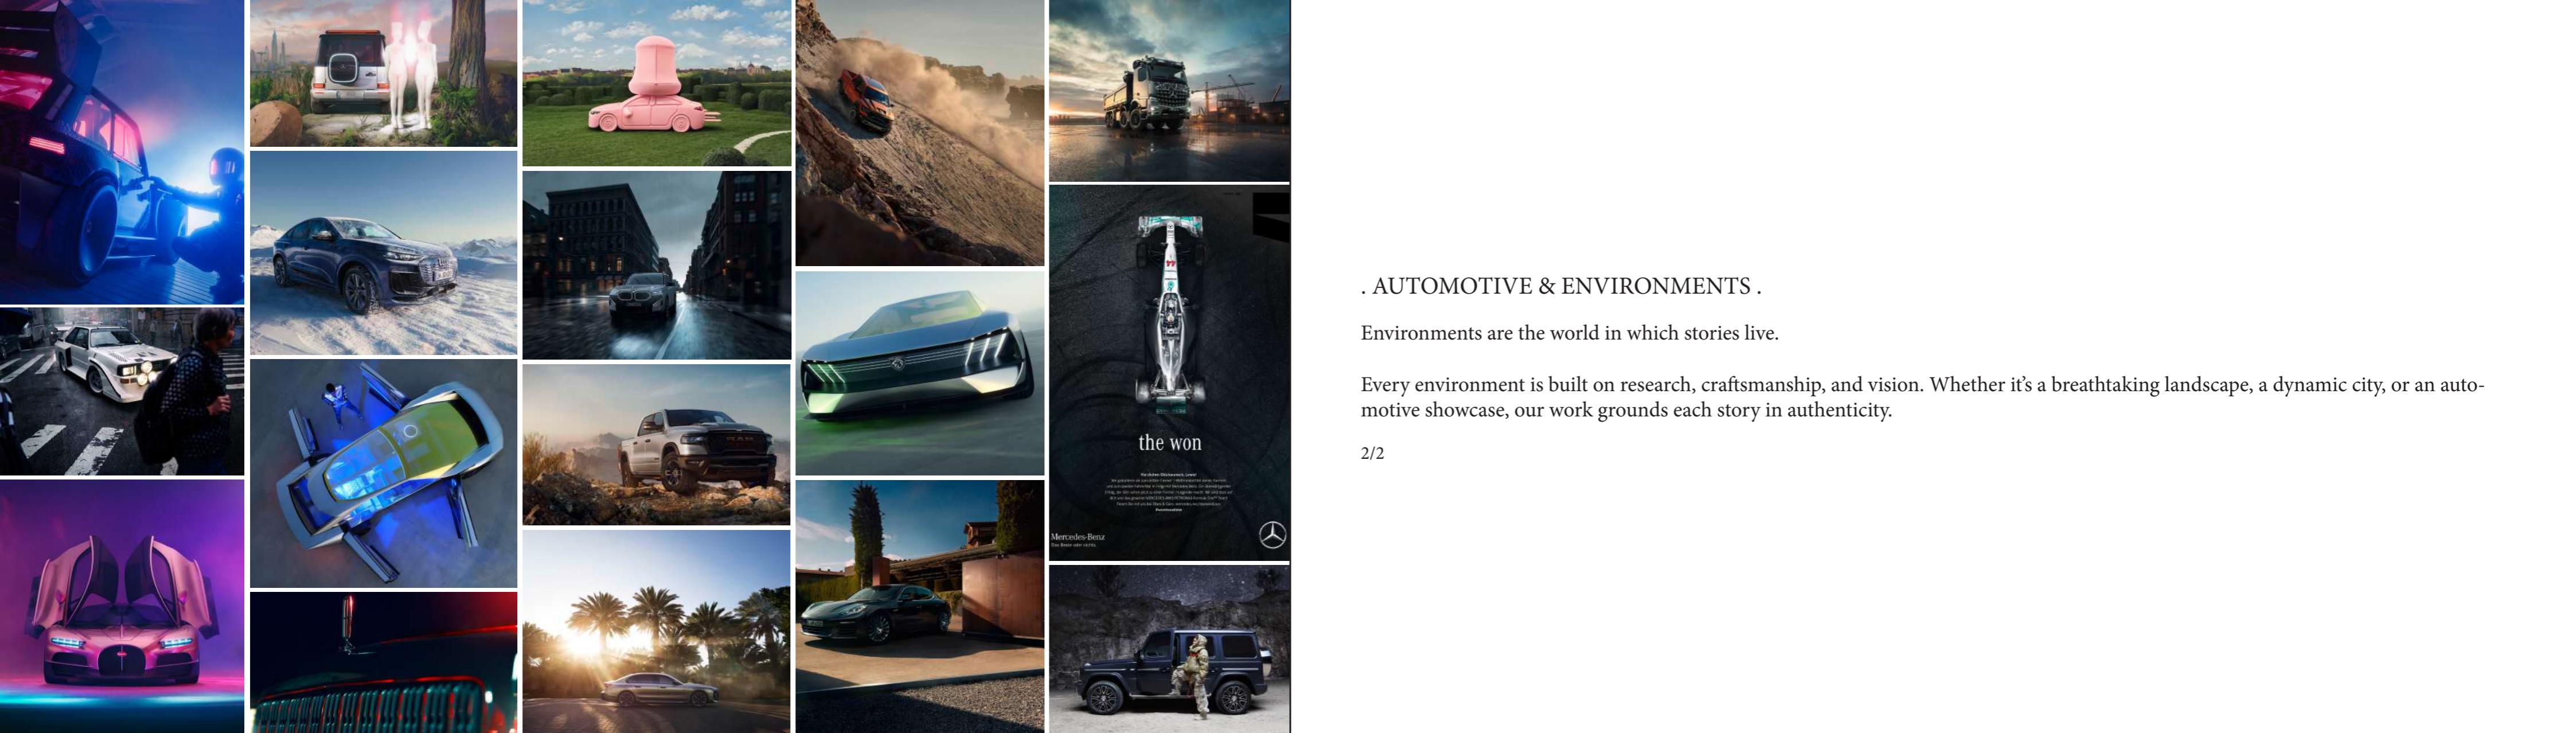

The IDEA of Recom Blacksmith was born when a hardworking, open-minded man met hardworking, open-minded people who, over time, chose to build something together instead of walking separate paths. Our collaboration has a soul and energy that rises above time and struggle.

Built on trust and shared ambition, our bond goes beyond work. Recom Blacksmith is a diverse collective of artists, technologists, and visionaries, committed to visual arts and to pushing creative boundaries. Working closely with clients, agencies, photographers, and directors, we craft visuals that are technically flawless and emotionally resonant. The goal is simple: to create images that are remembered.

. AUTOMOTIVE & ENVIRONMENTS .

The Environment team at Blacksmith creates worlds from vast landscapes to detailed cityscapes, from grounded realism to visionary futurism. We adapt to any aesthetics, delivering full CG environments or seamlessly extending plates with precise detail. Vehicles are integrated naturally into their surroundings, even in the boldest and most unconventional settings.

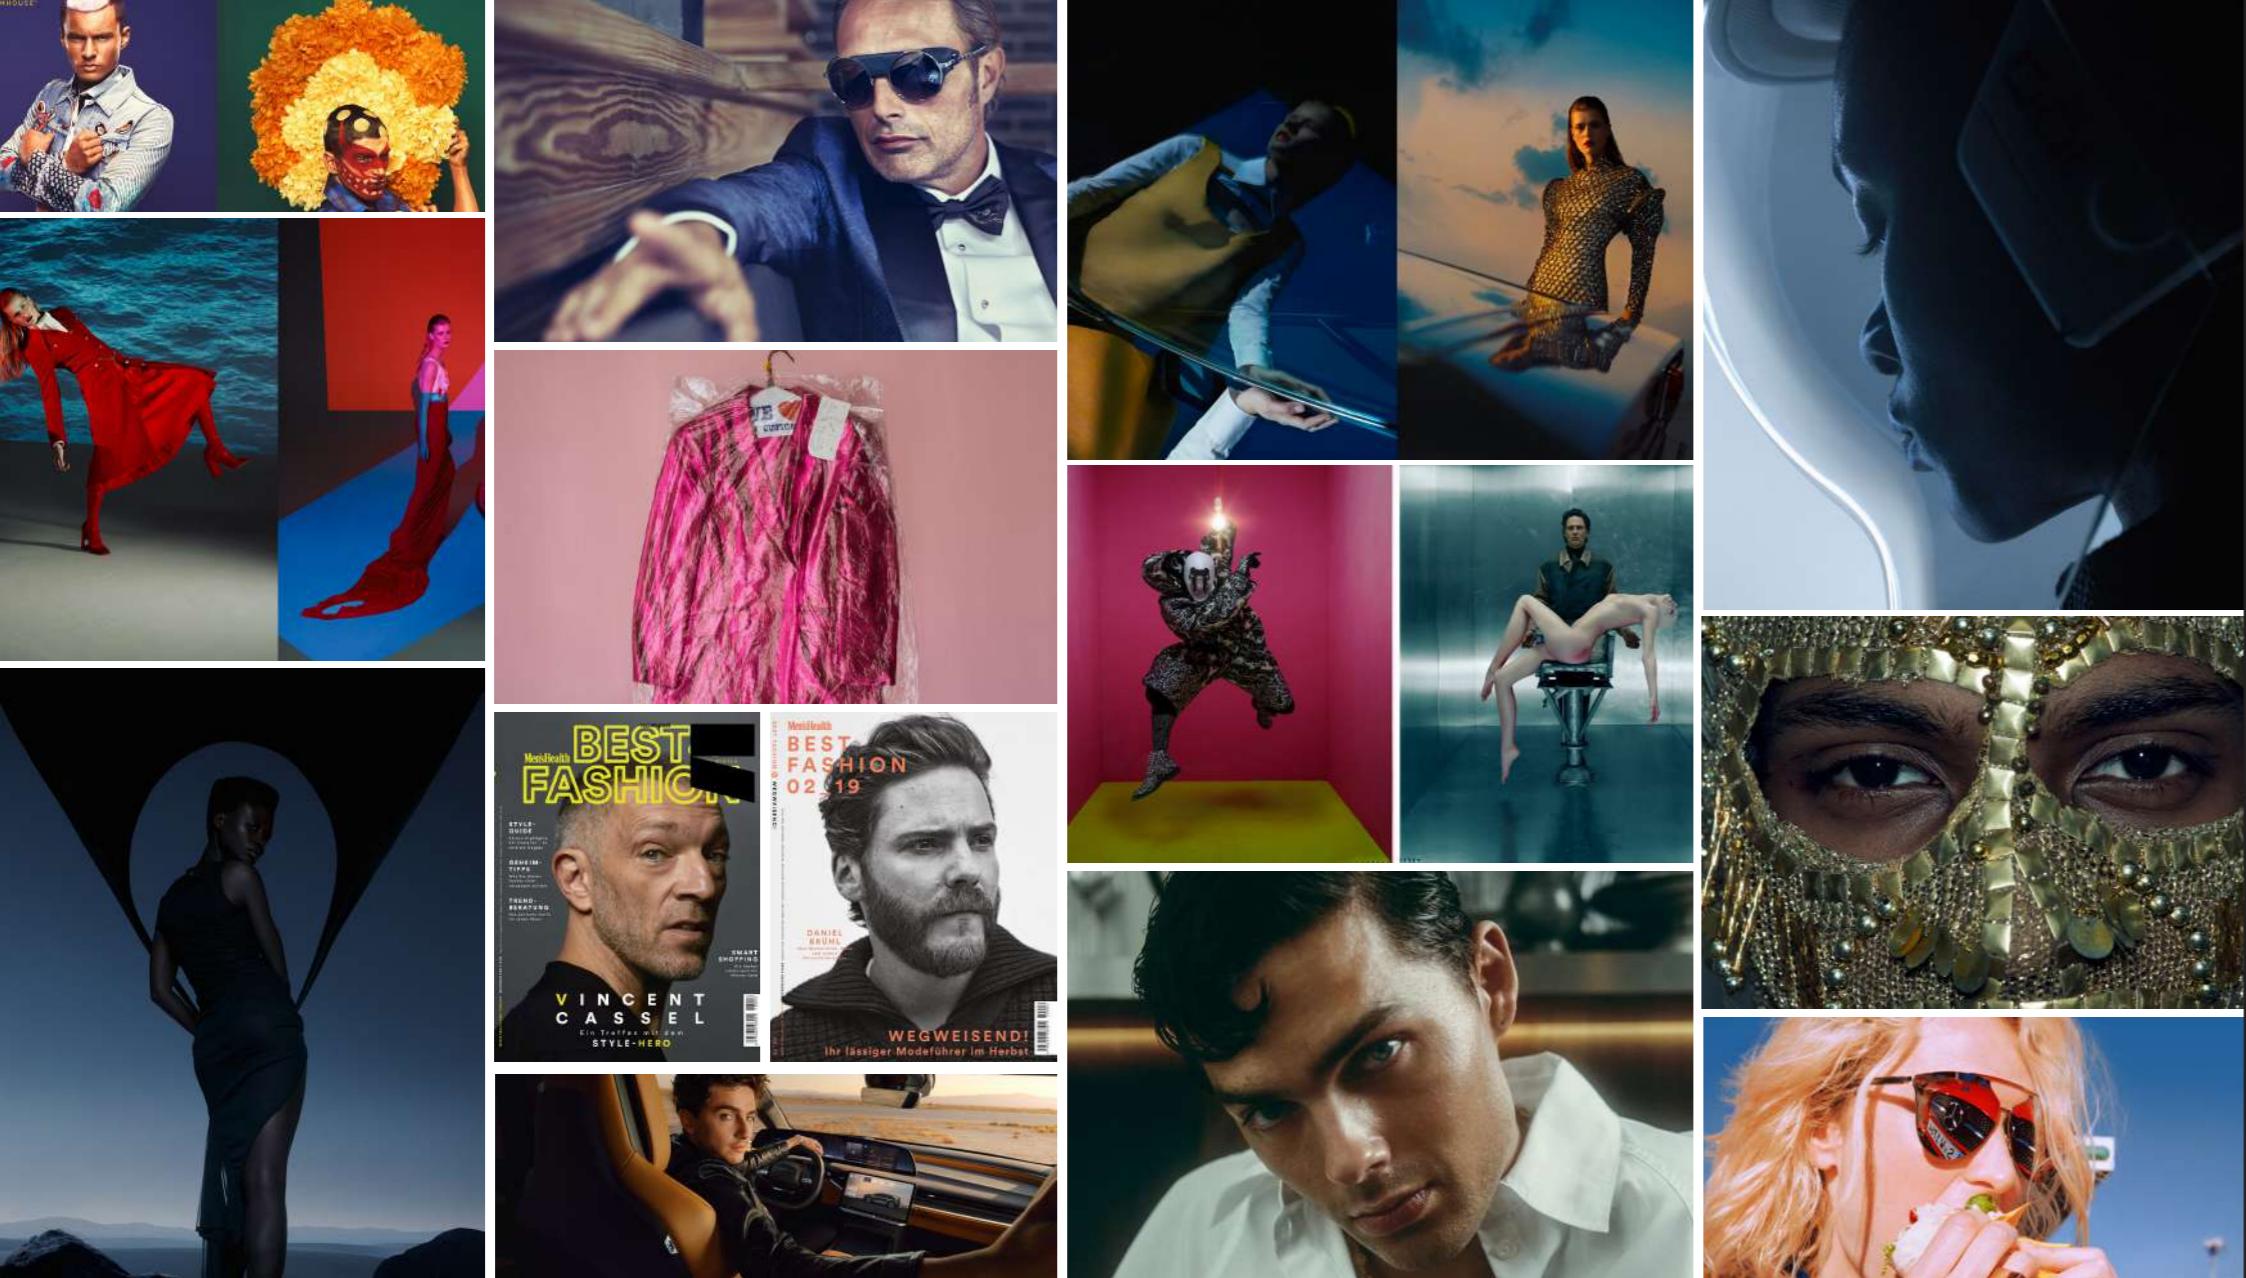

. AUTOMOTIVE & ENVIRONMENTS .

Environments are the world in which stories live.

Every environment is built on research, craftsmanship, and vision. Whether it's a breathtaking landscape, a dynamic city, or an automotive showcase, our work grounds each story in authenticity.

2/2

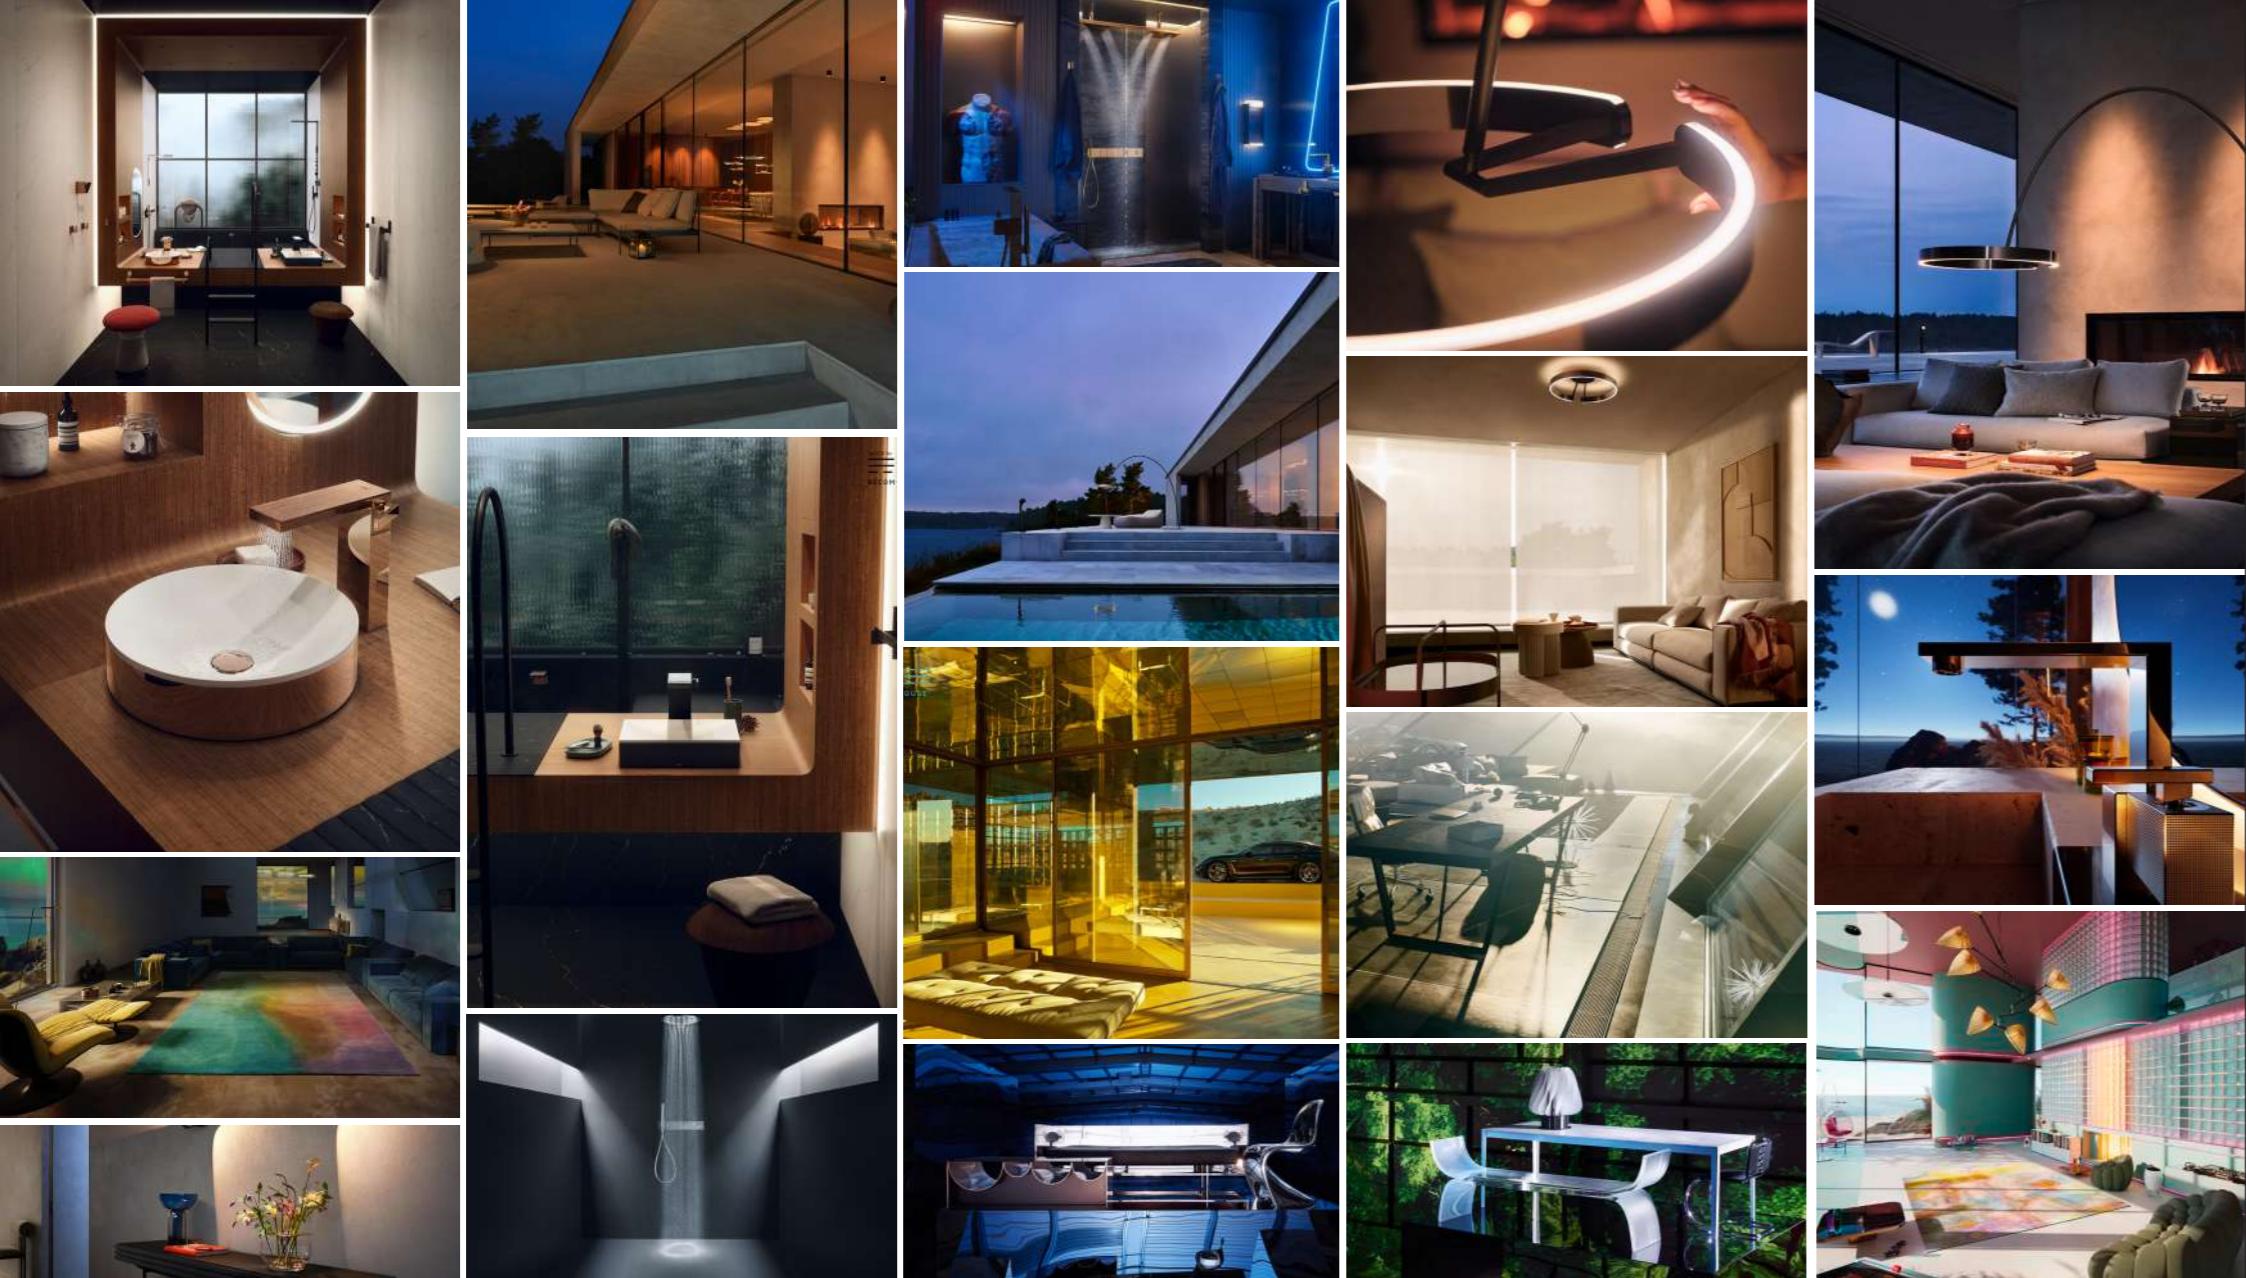

. FASHION & CREATIVE .

At the heart of our work lies a deep appreciation for fashion as culture, design, and identity. We believe every collection, every runway show, every street look carries its own story, of craftsmanship, trends, innovation, and personal expression. Those stories take shape in our visuals: editorial features, campaign shoots, style profiles, trend forecasts—always with an eye for texture, silhouette, detail, and mood.

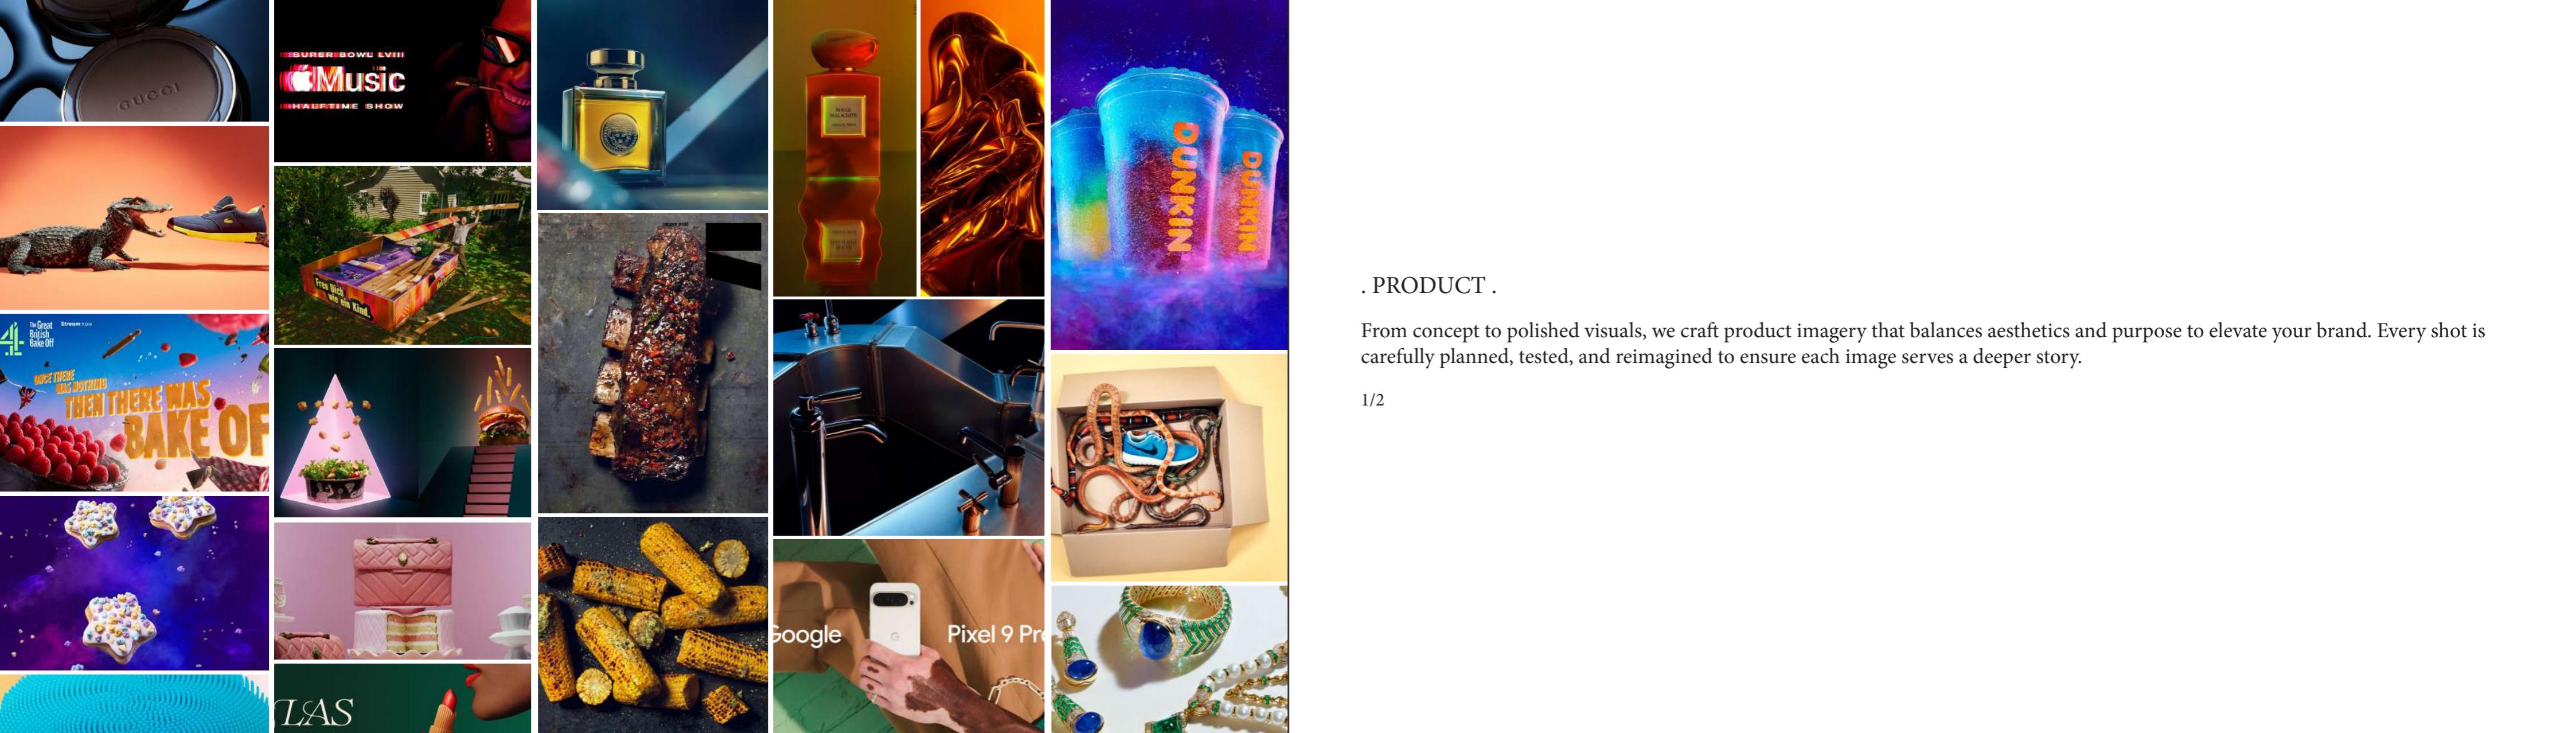

. FASI

We are makers and collaborators — artists, technologists, stylists, photographers, and creative directors — united in crafting images that goes beyond aesthetics. Our focus is on authentic brand voice, original styling and storytelling, and emotional impact in every frame.

•

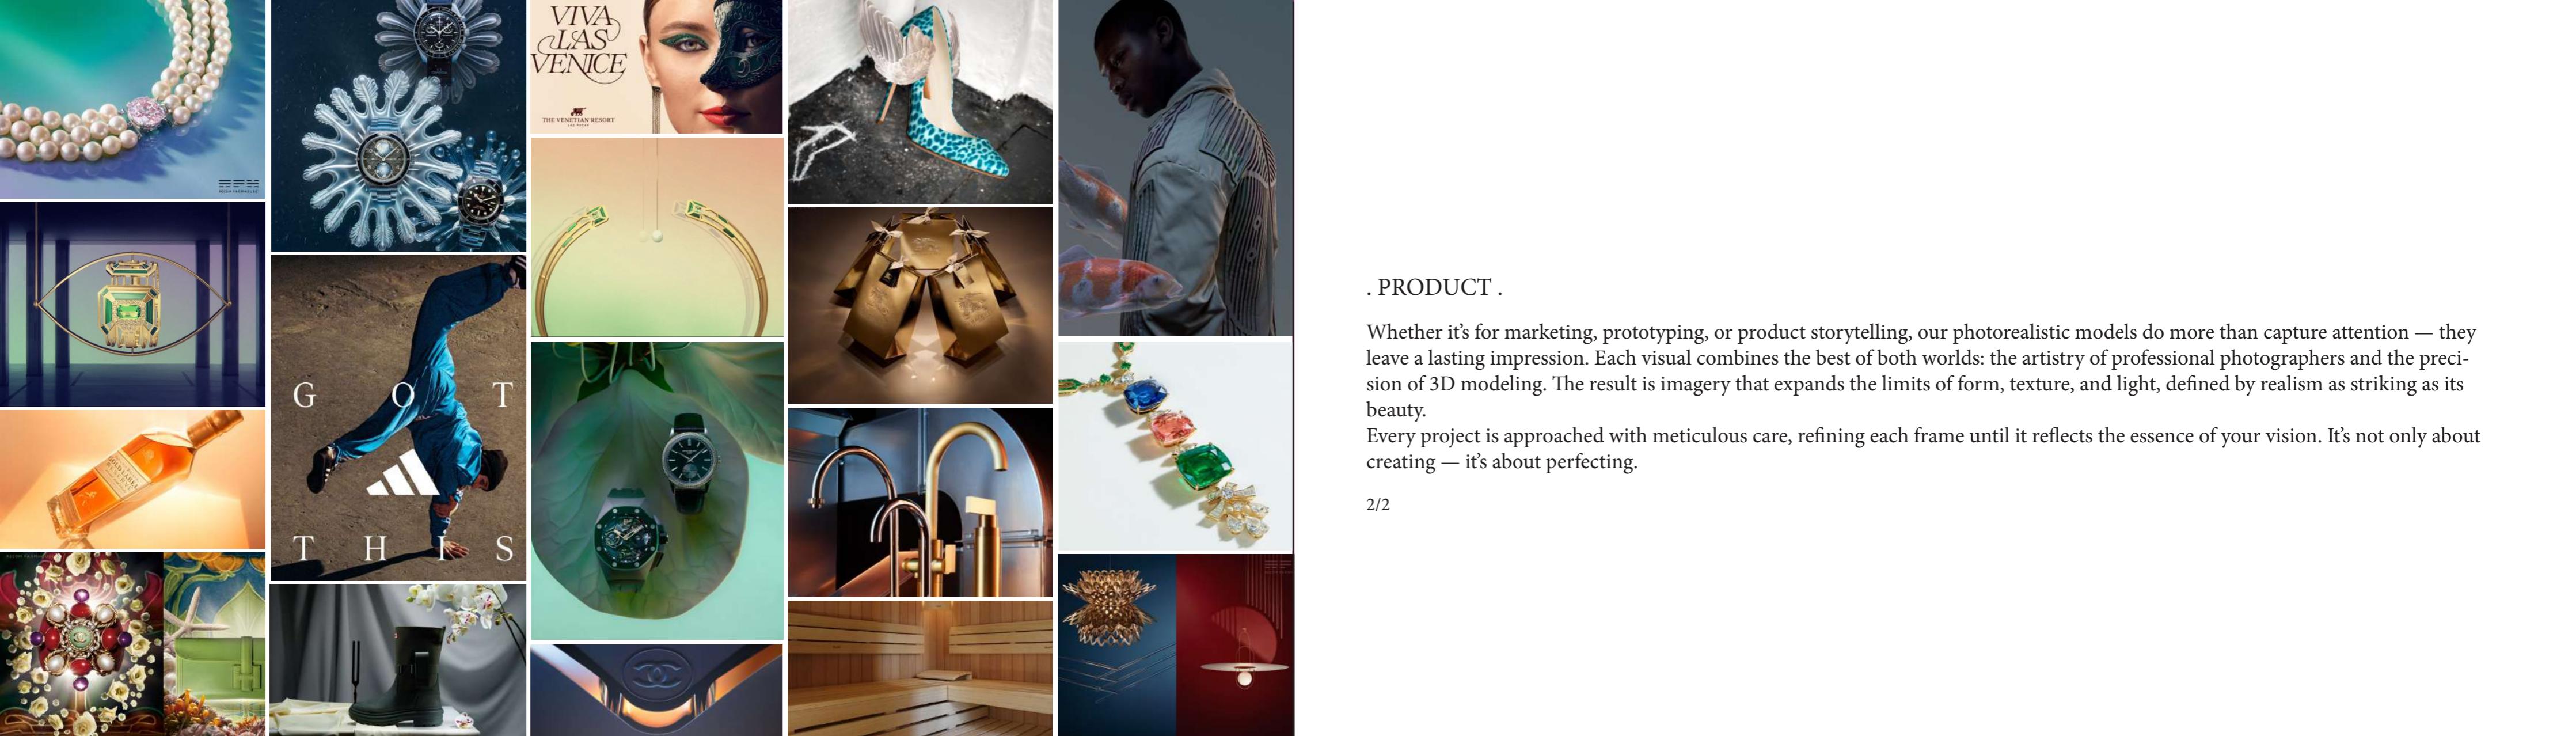

We visualize ideas. Every space is shaped by composition, form, light, material, and precision. Design concepts are transformed into 3D worlds that feel timeless, sophisticated, and luxurious. Each project reflects the character and intent of the design, aligned with your vision. From residential to commercial interiors, the goal is to create visuals that are grounded, ambitious, and personal.

. PRODUCT .

From concept to polished visuals, we craft product imagery that balances aesthetics and purpose to elevate your brand. Every shot is carefully planned, tested, and reimagined to ensure each image serves a deeper story.

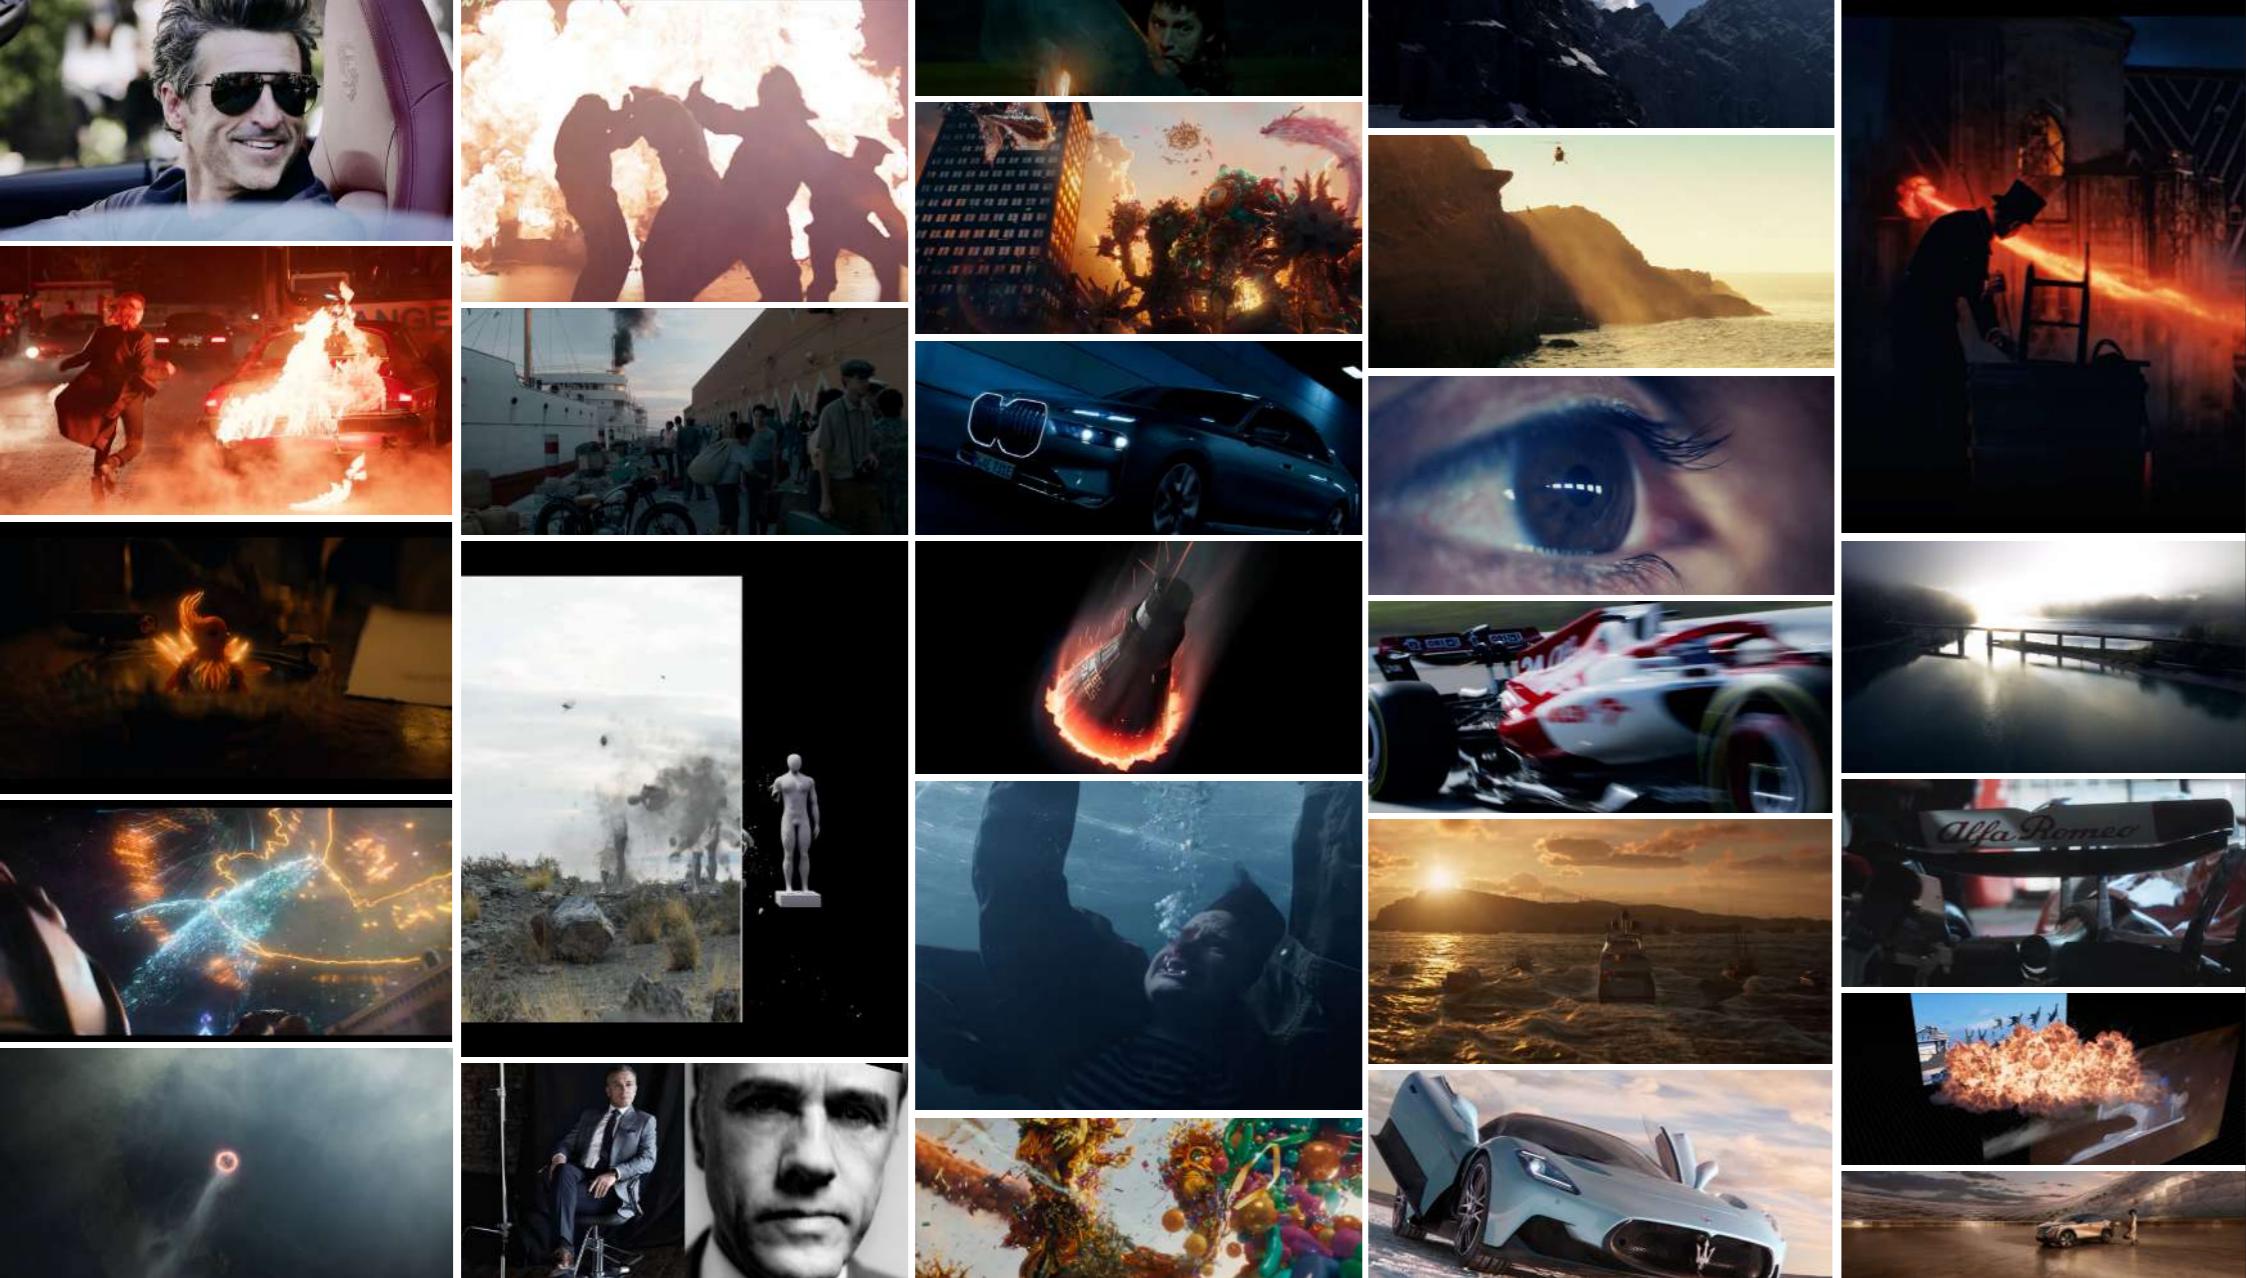

1/2

. PRODUCT .

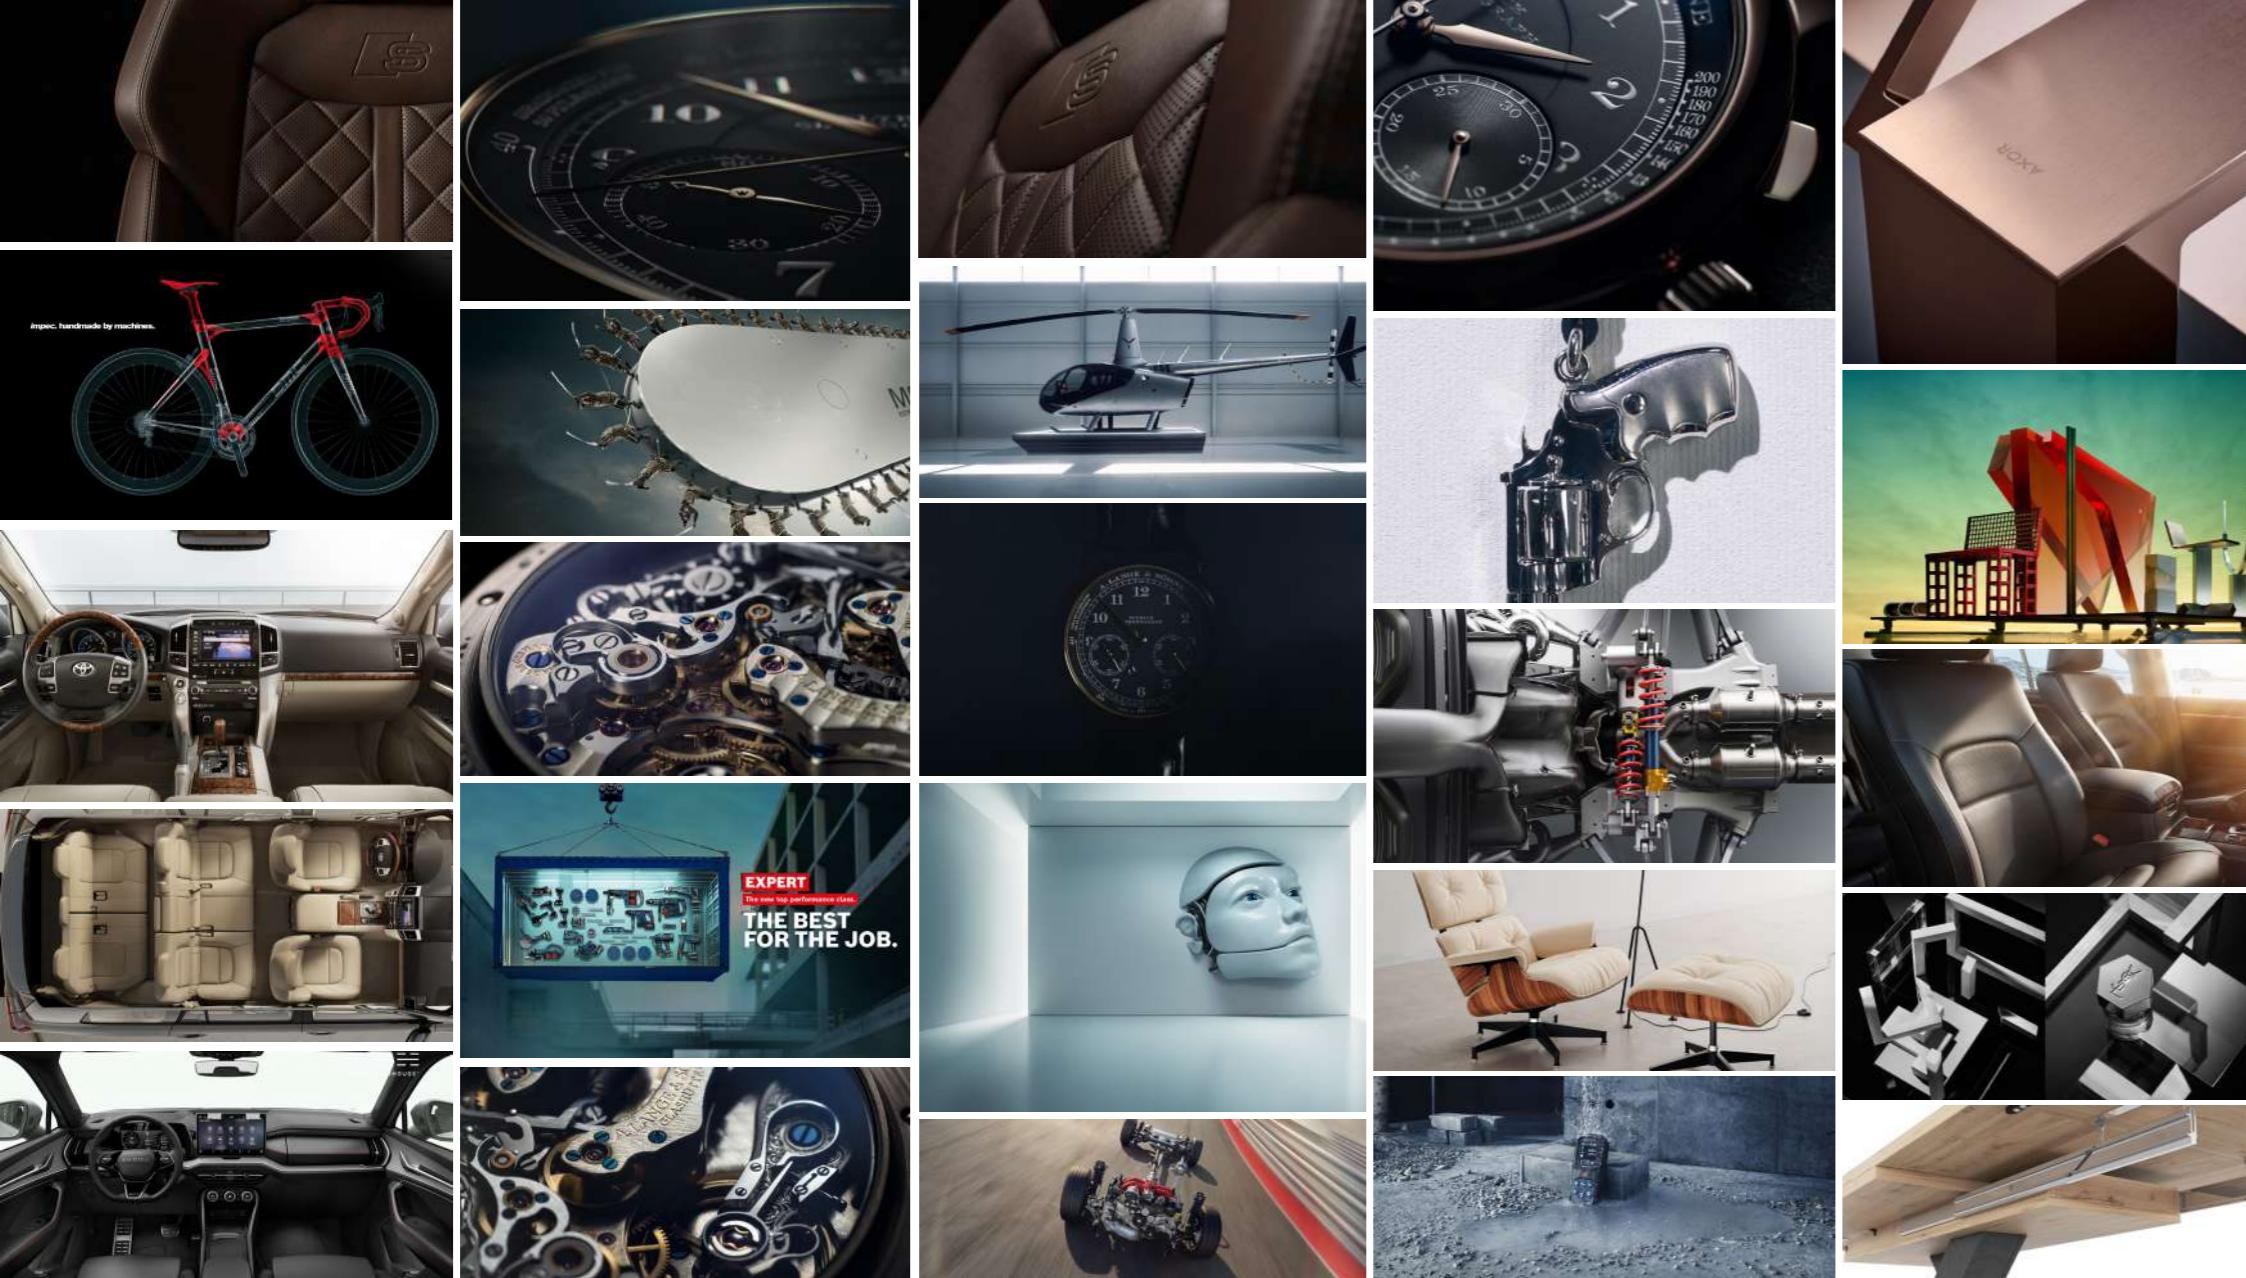

Whether it's for marketing, prototyping, or product storytelling, our photorealistic models do more than capture attention — they leave a lasting impression. Each visual combines the best of both worlds: the artistry of professional photographers and the precision of 3D modeling. The result is imagery that expands the limits of form, texture, and light, defined by realism as striking as its beauty.

Every project is approached with meticulous care, refining each frame until it reflects the essence of your vision. It's not only about creating — it's about perfecting.

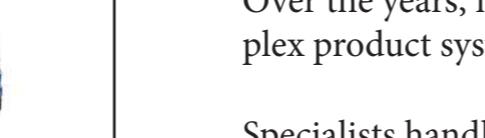

. FILM .

Everything starts with a simple idea — a concept — and is transformed into something real: visually, emotionally, and technically. Each shot is sketched, tested, and planned before production begins. From frame design to compositing, every detail is handled with care. No frame is just another step in the pipeline — it's refined and tuned until it feels exactly right.

. TECHNICAL .

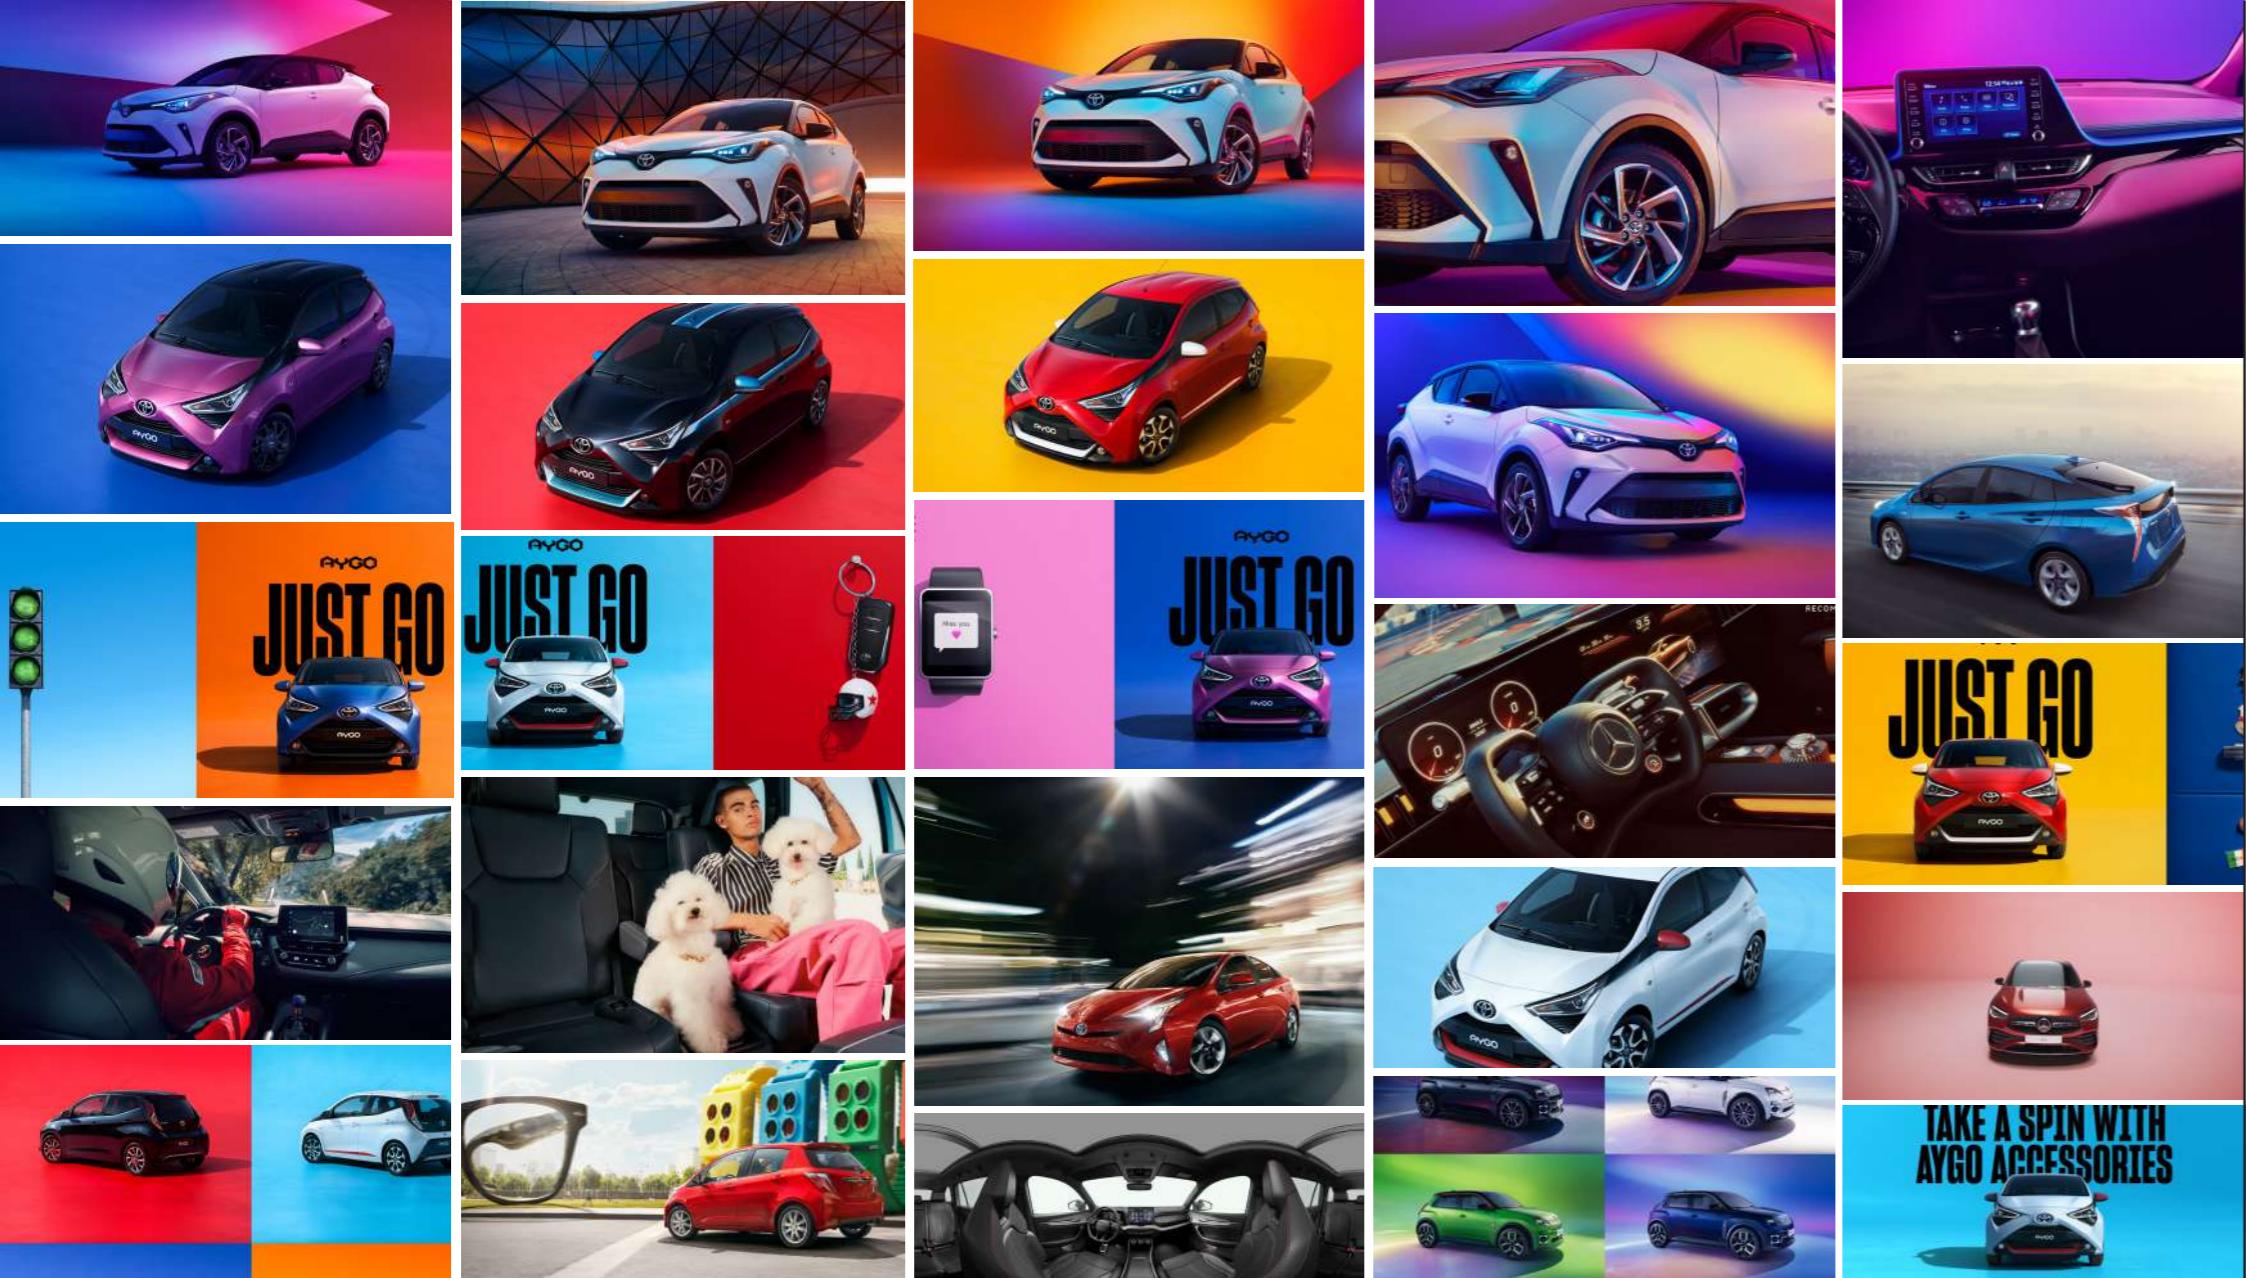

Ideas become interactive. Every detail can be tailored to match your vision — whether it's showing a product exactly as imagined, building a full 360° experience, or exploring it in 3D space. Each piece is built with strong technical knowledge and refined craft.

. AUTOMOTIVE CONFIGURATORS .

Over the years, more than 250 000 configurators have been produced for Toyota USA, delivering precision and scalability for complex product systems. Experience spans a wide range of configurators across furniture, interiors, and consumer products.

Specialists handle every step, from modeling and lighting to set-dressing. Every angle is carefully refined until the idea is fully realized in its most complete, interactive form.

. CREATIVE CONFIGURATORS .

From raw data to final render, we handle every step of the process. We organize, prepare the data, and deliver your content for all media -presenting the results of your vision, translated into a well-organized and compelling product.

Seamless execution and flawless renderings — products designed to look as good as they perform.

Trusted by Global Brands

Automotive

Acura, AMG, Audi, Automobili Pininfarina, Bentley, BMW, Canoo, Citroën, Ducati, Ford, Genesis, Honda, Hongqi, Hyundai, Infiniti, Jaguar, Land Rover, Lexus, Lincoln, Maybach, Mazda, Mercedes, NIO, Nissan, Peugeot, Porsche, Range Rover, Renault, Rolls-Royce, SEAT, Škoda, Smart, Toyota, Volkswagen, etc.

Other Industries

Apple, Barclays, British Airways, Dunkin' Donuts, Eurostar, Google, Huawei, IBM, IKEA, Kärcher, A. Lange & Söhne, Mastercard, Numéro, Oppo, Otto, Payone, Revolut, Smithsonian Magazine, Stern Magazine, Tanqueray, Uber, Vogue, Wallpaper, etc.

Partnership

We work as true partners — from early consulting and planning to previs, camera and lighting setups, production, and final delivery. The process is built for collaboration, supporting creative teams while adding technical clarity at every stage.

The strongest results come from close teamwork between creatives and CGI artists. Alongside our client work, internal projects continuously sharpen our craft — pioneering techniques, improving pipelines, and pushing visual boundaries. Our expertise includes complex post-production workflows, custom tools, and highly optimized systems designed for reliability and efficiency.

The goal is simple: to give ideas the structure, confidence, and execution they deserve.

Our expertise spans:

- Automotive — commercial CGI stills, motion, interiors, and advanced product configurators
- Advertising & Film — high-end CGI animation and cinematic storytelling
- 3D Asset Creation — engineered for both still and motion, with longevity at the core
- Interiors & Furniture — CGI redesigns, spatial visualization, and interactive configurators
- Brand Visuals — campaign imagery and identity-driven content systems
- Fashion CGI — digital garments, editorial visuals, and lookbooks
- Bespoke Jewelry — precision-crafted luxury assets
- AI-Enhanced Workflows — intelligent production support without compromising artistry

Services :

At Recom Blacksmith, investment becomes vision — and vision becomes value.

We don't create visuals for a single moment. We build long-term digital assets that grow with your brand. These assets deliver consistent quality across stills, motion, interactive experiences, and future platforms. Free from the limitations of locations, logistics, and reshoots, one meticulously crafted asset can generate endless hero images, cinematic sequences, and conversion-driven content.

When you invest in 3D with us, you're not buying a picture or motion — you're building a future-proof product universe.

We create assets that grow your brand.

You are building a future-proof product universe.

RECOMBLACKSMITH®

handcrafted visuals since 2017 · Part of Recom, founded in 1987

. WE ARE THE CONNECTION . BETWEEN . IDEAS AND REALITY .

Our journey is guided by the belief that creativity has no limits. With each project, expectations are challenged and new possibilities emerge through craft, innovation, and attention to detail. By pushing boundaries, visual storytelling moves forward. We create moments that live on.

Our offices are located in Sofia, London, Paris, New York, Berlin, Stuttgart, Hamburg.
